

Critique and Repair

Work individually for ten minutes, compare with a partner for ten minutes, then revise your response.

Read the artefact

Prompt	Response
What is the main claim?	
Who is the likely audience?	
What decision or judgement does it support?	
What is directly visible?	
What is interpretation rather than observation?	

Test the design

Prompt	Response
What variables are encoded?	
Which visual channels are used?	
What comparison is easy?	
What has been aggregated, omitted or hidden?	
What could mislead or be overclaimed?	

Verify and repair

Prompt	Response
What data or source would you check?	
What alternative view would you create?	
What would you change in the chart?	
Write a repaired caption	

Responsibility checkpoint

Who benefits from this interpretation? Who could carry the cost if it is wrong?
